Department of Police Services

Project P.E.D.

***P*edestrian Safety
*E*nforcement
*D*eterrence**

University Police officers are conducting a continuing enforcement and educational campaign, **Project P.E.D.**, with a concentrated effort to educate the community on reducing the risk of injury to pedestrians and motorists on the CSUN campus.

Pedestrian versus auto collisions are high risk on the streets surrounding the campus due to the high concentration of people and vehicles. These conditions mandate safe driving practices and cautious pedestrian procedures.

Help us in our efforts to improve pedestrian and vehicular safety:

- **Obey all speed limits and stop signs on roadways, in parking lots and structures – it's the law!**
- **Do not use a cell phone while driving or crossing the street – distractions cause accidents!**
- **Yield the right-of-way to pedestrians**
- **Use designated cross walks**
